

12/9/94
153361

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY
REGION 5

Date: December 9, 1994
To: Tom Martin, Carol Graszer, Jeff Gore, and Paul Tackus
From: Sam Borries, ^{SB}OSC
Subject: December 19th meeting agenda, Sauget Area 1, Site G

The time for our meeting on December 19, 1994 will be 1:30 pm in conference room A on the 5th floor of 77 W. Jackson Blvd., Metcalfe Building.

Tom, in an effort to keep from conflicting with your morning meeting, which may run over, I have listed some of the technical issues Paul, Jeff and I can discuss before you show. We will put off discussing the legal ramifications until you arrive.

Everyone please feel free to come up with any issues you may want to add and discuss at this meeting. If at all possible I would like to leave the meeting with as many answers to these issues as we can so we don't have to meet again.

Monsanto will be sending out a scope of work for our review during the week of December 12th. It would greatly benefit the meeting if we all have a chance to review the scope of work before we meet. Please do your best.

Please call me at (312) 353-2886 if you have any questions or problems with making this meeting.

AGENDA

- 1) Cap Design - clay vs. HDPE
- 2) Limits of excavation outside fenced boundaries, sampling.
- 3) Monsanto's Scope of Work
- 4) Incorporation of Dead Creek Segment B adjacent to Site G
- 5) Cleanup goals - industrial, commercial, residential?
- 6) PCB placement, LDR issues?
- 7) Any other issues you bring, Thanks.

8) Access

ACC vs. UAC ACC -
UAC - do work then claim no evidence exist
